

Trojan Professional Services

Overview of Products and Services

Trojan Professional Services provides support services to dental professionals frustrated by wasted time and production caused by time consuming tasks, such as compiling benefit information from insurance companies. Trojan offers automated electronic services as well as provides support by personally handling communications with third party providers so office staff can focus on patient care and increasing practice revenue.

Trojan offers products and services for dental practices such as:

Benefit Services

Benefit Services provides an entire team of qualified dental benefit experts at your service. Our staff works for you everyday to obtain patient dental group benefit information that is laid out in a concise, easy-to-read format on your computer. Let us do the research while you attend to patients.

Custom Benefit Option and Patient History

Custom Benefit Option and Patient History are available when you upgrade your basic service. These services are optional and provide your office with additional codes, benefit research, and patient-specific information beyond our traditional benefit plans.

TROJAN PROFESSIONAL SERVICES

Eligibility

Eligibility provides patient-specific eligibility and benefits directly from insurance carriers. Automate this process with Dentifi or use only when you want it with Trojan's Desktop Eligibility.

Collection Services

Collection Services utilizes the power of the three largest credit bureaus in the United States: Experian, TransUnion, and Equifax. When patients won't pay attention to you, third party intervention makes all the difference.

Managed Care

Managed Care summarizes the most critical features of each plan, including co-payment schedules, supplemental payments, visit fees, and pertinent lab reimbursement information.

DrDirect

DrDirect eliminates paperwork, increases cash flow, and avoids costly delays. Through Trojan's Electronic Claims Service, you get paid faster.

Dentifi

Dentifi is Trojan's response to dental professionals frustrated by wasted time and production caused by having to track down patient benefits and eligibility information during an already full day of activities.
