

Dentifi Eligibility

Verify Your Patient's Eligibility Before Their Appointment!

Introducing Dentifi Eligibility, the latest innovation from Trojan Professional Services.

A fun and affordable solution to add to your basket of tools, Trojan's Dentifi Eligibility centralizes your efforts by automatically processing eligibility from your appointment book nine days in advance. Eliminating the need to contact multiple payers or select eligibility one by one through your practice management system, Dentifi Eligibility continues to pick up changes to your appointment book once every 24 hours. Also included is a single source access point, so you can verify patient eligibility anytime, any day. With nearly 150 carriers participating and counting, responses come directly from the carriers themselves in a standardized, easy-to-read format.

Dentifi's Eligibility will help you:

- Reduce time calling for patient eligibility and benefits
- Reduce visiting multiple websites and calling numerous 800 numbers
- Reduce claims denials by confirming eligibility in advance
