Trojan Eligibility centralizes your efforts by eliminating the need to contact multiple payers. Through a single source access point, you can verify patient eligibility and effective date and, in some cases, receive up-to-date benefit coverage such as individual waiting periods, plan maximum, remaining maximum, and deductibles. All this, in a standardized, easy-to-read format.

Trojan's Eligibility Program is a desktop version that you use as often as you need it. Send requests while prospective patients are on the phone with minimal information or re-verify patient eligibility before routine visits. Results are saved in one place forever.
